

## data sheet

### BENEFITS

#### Dual band concurrent operation

Industry's first 2.4 GHz and 5.0 GHz concurrent wall switch allows for efficient meshing while streaming multiple applications simultaneously

#### Gigabit uplink

Maximizes the network capability to ensure seamless multi-client streaming connectivity

#### Ubiquitous connectivity for converged IP services

Multiple SSIDs, port-based VLANs and robust authentication options make the ZoneFlex 7055 ideal for supporting concurrent IP-based services such as VoIP, IPTV, high-speed Internet access and in-room device connectivity

#### Flexible deployment options

The ZoneFlex 7055 requires a single POE cable drop, reducing cabling, switch ports and power sourcing equipment or power adapter

#### Easy installation

Installs into any standard network wall jack, offering two Ethernet uplink options: RJ-45 connector and a 110 punch down block

#### Wall mounted, inconspicuous compact form factor for best aesthetics with universal form factor

Low profile design and front port access eliminates unsightly cabling and disruptive furniture placement

#### Integrated POE support eliminates more wires

Provides POE out to power devices such as IP-based VoIP phones eliminating the need for more power chords that clutter the environment

#### Plug and play for existing digital phones

Pass-through port allows native connectivity for existing digital phones or others

# ZoneFlex™ 7055

## MULTIPURPOSE DUAL BAND CONCURRENT 802.11n WIRED/WIRELESS WALL SWITCH

### High Performance 2x2:2 Integrated Wired/Wireless Wall Switch

The Ruckus ZoneFlex 7055 is the industry's first dual band concurrent wired and wireless wall switch that integrates high-speed 802.11n Wi-Fi into an ultra-sleek, low-profile design that can be quickly and discretely installed in a standard wall junction box.

Ideal for offering converged services within hotel guest rooms and university dormitories, the ZoneFlex 7055 provides an easy way to offer multiple connections into a single room without multiple cables.

The ZoneFlex 7055 delivers high performance 2.4 GHz and 5 GHz 802.11n wireless coverage and four wired Ethernet access connections that can be used to support a range of in-room IP device and user connectivity options. An additional pass-through port allows connectivity for digital phones that requires native access to an in-house PBX system.

An IEEE 802.3af-compliant POE port, up to 6.5 watts, powers devices such as IP telephones directly from the wall switch (with 802.3at input can output 13W). The ZoneFlex 7055 requires only a single POE cable drop thereby reducing cabling, switch ports, and power sourcing equipment.

The ZoneFlex Wi-Fi Wall Switch is completely inconspicuous, minimizing the protrusion off the wall to make in-room cabling and furniture arrangement simple. Flexible deployment options allow the ZoneFlex 7055 to be easily installed via two uplink Ethernet options: an RJ-45 Ethernet jack or a 110 punch down block connection.

The ZoneFlex 7055 can be deployed as a standalone device or centrally managed by the Ruckus ZoneDirector or FlexMaster Wi-Fi system management platform.

With the ability to broadcast up to 8 SSIDs per radio, the ZoneFlex 7055 supports port-based VLANs. Authentication options include: 802.1x, MAC-based, captive portal, LDAP, RADIUS, Active Directory and through an internal user database.

# ZoneFlex™ 7055

MULTIPURPOSE DUAL BAND  
CONCURRENT 802.11n WIRED/  
WIRELESS WALL SWITCH

## FEATURES

- Integrated 2x2:2 600 Mbps Wi-Fi AP and Ethernet wall switch
- Dual band 11n Wi-Fi and four Ethernet access ports offers HSIA with a Gigabit Ethernet uplink
- Wi-Fi Redundancy, in-room coverage
- Powered by either POE or 48 VDC
- Supplies POE power 6.5W or 13W
- SmartCast QoS
- 8 BSSIDs per radio with unique QoS and security policies
- WEP, WPA-PSK, WPA-TKIP, WPA2 AES, 802.11i
- 802.1X support for RADIUS and Active Directory\*
- Zero-IT and Dynamic PSK\*
- Captive portal and guest accounts\*
- Mounts into standard US and EU single gang wall jack
- RJ-45 or 110 punch down block options for uplink Ethernet port
- One RJ-45 pass-through connection
- Universal form factor
- SmartMesh capable
- Torx screws to secure AP and provide security against opportunistic theft or tampering

## Product Ordering Information

MODEL	DESCRIPTION
<b>ZoneFlex 7055 Wi-Fi Wall Switch</b>	
901-7055-XX01	Dual band Wi-Fi Wall Switch
<b>Optional Accessories</b>	
902-0170-XX10	Power Supply (Qty. 10)
902-0111-0000	Adjacent wall plate jacket

PLEASE NOTE: When ordering you must specify the destination region by indicating -US, -CN, or -WW instead of XX.

WARRANTY: Sold with a limited lifetime warranty.  
For details see: <http://support.ruckuswireless.com/warranty>
